Reach the Developer Audience

Connect with high-value technical talent directly where they spend their time: GitHub.

Built on Zero Trust Architecture

We know your source code is sacred. We designed SponsorGit to be completely hands-off.

Start earning in 60 seconds

01 **Register your Repository**

Link your GitHub account and select the repositories you want to monetize.

02 **Copy the Markdown**

We generate a unique, non-tracking native image tag for your project.

03 **Profit from Views**

Get paid for every impression as developers view your documentation on GitHub.

Simple, transparent pricing

No CPM. No CPC. No tracking. Just a flat monthly fee.

Beta users get the first 2 months free. No credit card required.
